Henkel CSR Bootcamp
C Program Day 3 – Pattern Printing

Program 1 :

Write a C program to print a triangle pattern like below

*

* *

* * *

* * * *

Hints for logic:

Use two for loops: one for rows, and one for stars in each row.

The outer loop should run 4 times.

The inner loop prints stars.

Program 2 :

Write a C program to print a number triangle

Hints for Logic :

Outer loop: for rows (1 to 4)

Inner loop: print numbers from 1 up to the row number
